

This cuvée "Les Silex" comes from flinty and clay silicious. These wines profit of their very good exposition, it gives every year a beautiful maturity with the typical minerality of flint. A very elegant Sancerre from Silex.

|                      |   |
|----------------------|---|
| Grape variety        | 100% Sauvignon  |
| Soil type            | Flinty and clay silicious   |
| Average age of vines | 30 years old  |
| Pruning              | Simple Guyot cut  |
| Harvesting           | Hand harvesting on September 16th, 2023   |
| Wines press          | Grapes are intact when they are brought into the pneumatic presses with a conveyor to save them from oxidation and pummeling.   |
| Vinification         | Slow fermentation at low temperature (between 16 and 20°C - 61 and 68°F) is conducted in thermo-regulated tanks in order to preserve the maximum natural aromas of the Sauvignon blanc. |
| Production           | 4500 bottles  |
| Tasting              | The nose opens one yellow fruits notes, with a hint of grapefruit that brings freshness. The mouth is rich and full-bodied, the finish remains fresh and very mineral.                  |
